TEACHING EXPERIENCES

2016-2018

TEACHING ASSISTANT [TA]

North Carolina State University, College of Design, Raleigh, North Carolina, USA.

SPRING 18

GD 401 Capstone Graphic Design Studio under Dr. Matthew Peterson.

I assisted the instructor by coordinating the Senior Capstone Exhibition and worked with the students individually or in teams to help them with their capstone project and also to ensure progress in the creation and planning of the exhibition.

FALL 17

GD 210 Image and Technology under Dr. Matthew Peterson.

I assisted the instructor for the preparation of the class and also taught my own section which gave me the opportunity to lead the class with activities, critiques, discussions and demos. I also prepared and led short demos for Adobe Illustrator, Photoshop and XD.

SPRING 17

GD 400 Crafting Graphic Identity Systems under Denize Gonzales Crisp.

I established myself as a resource for students to help them with the development of their projects. I regularly provided them feedback during one-on-one meetings and also led several presentations in the class.

CURRENT RESEARCH

2016-2018

MASTER OF GRAPHIC DESIGN FINAL PROJECT

North Carolina State University, College of Design, Raleigh, North Carolina, USA.

SPRING 18

**Collaborating with Machines Rather than Commanding Them:
Interaction and Interface Design for a Human-AI Collaboration Paradigm**

Committee Chair: Helen Armstrong. Committee members: Dr. Matthew Peterson and Denise Gonzales Crisp.

My research on the impact of artificial intelligence and machine learning upon collaborative activity, via an interface, forefronts the impact of big data upon the design process. To propose meaningful, inclusive design solutions, designers must be able to access and analyze expert data and knowledge. Machine learning techniques can enable designers to access this data and knowledge in real time and thus influence their design decisions. Ultimately, this research presents opportunities for designers to define a new collaborative human-computer relationship enabled by artificial intelligence.

2017-2018

RESEARCH ASSISTANT [RA]

North Carolina State University, College of Design, Raleigh, North Carolina, USA

FALL 17 TO SPRING 18

Function of Imagery in Instructional Media under Dr. Matthew Peterson.

I am assisting the instructor with his research by gathering a library of visual references as well as creating new images to support the image functions defined for in the research.
